Learning how to perform poetry in literacy...

Core Subjects

Literacy: We learnt how to write instructions and had some fun writing some imaginary instructions for a journey through fairyland. We have also been writing poetry using our five senses. Ask us about the 'feely bags' lesson!

Maths: We learnt how to measure weight using grams and kilograms, and we are now learning about multiplication and division, using groups and arrays.

Science: We have continued our investigations on materials, by finding out which materials are waterproof. We also tested different types of balls to find out which was the bounciest, and have investigated solids and liquids by melting wax, ice and even chocolate! Who knew science could be yummy?

Reminders

Birthdays in class!

Please don't forget to give 24 hours notice if you plan to bring in treats for your child to celebrate their birthday in class, so we can plan a time.
