

NEWS @ SIX

6B'S OFFICIAL MONTHLY NEWSLETTER

JANUARY in 6B

Happy 2020! This month, 6B presented our termly assembly, educating our year 2 to 6 peers on the origins of Chinese New Year. A busy month!

FOCUS ON LITERACY

We finished our study of persuasive writing, where we wrote persuasive letters and book reviews as well as a debate against 6A, arguing NO to the question: Should we have phones in school? We also began our class novel, The One & Only Ivan.

FOCUS ON TOPICS

We have been very creative in Topics while studying the Mayan civilisation, creating Mayan temples and houses, cooking hot chocolate and guacamole, investigating the Day of the Dead and learning about transport and trade systems.

FOCUS ON MATHS

In Maths, we were challenged with a study of plotting co-ordinates in all 4 quadrants and interpreting pie charts. BODMAS was also mastered and 6B are experts at the order of operations for some difficult sums. Next month we begin Algebra!

FOCUS ON SCIENCE

Our study of classification has brought up many interesting discussions. We have learned how living things are classified, made our own dichotomous keys and researched various animals, including the Great Apes (which we are one of!)
