

ISSR

Newsletter 11th November, 2022

With Ms. Heather

Literacy

We have learned to: Read, write and speak with better accuracy.

We are doing in-depth analysis of characters through the use of showing, not telling, how our character is feeling or being. Expanding our descriptions of physical responses to our character's situation, be they shocked or excited.

Maths

We are learning to:

Revise our knowledge, and observation of Odd and Even numbers, to assist us to see more quickly, when dividing things into groups, which ones will give us a remainder. Extended subatizing practice.

Science

We have learned to:

Continuing the unit: Matter— States of Matter Liquid Solid and gas.

Students were able to transfer their knowledge of the reason for Matter to assume its consistency, through correctly choosing particle movement of solids, gases and liquids.

NOTICES

Students must wear their **swimming costume** under their PE clothes on their swimming days. They are required to have:

- Goggles, swimming cap, wetsuit styled bathing costume;
 - slippers to walk safely around the pool; a towel;
 - a plastic bag to keep the wet swimwear and towel in;
 - dry underwear, socks and shoes to wear for the rest of the day.
- Pool safety and cleanliness is paramount.

Dear Parent/ Care Givers,

As a continued effort in improving our safety policy, effective Monday 14th November we will be locking the gates as we did previously. Meaning, students will be dropped off as normal but only through the small gate and also picked up there. Parents will not be allowed to enter the gates unless they have an appointment. We thank you for your continued cooperation in ensuring our school is well managed and safe.
