

Year 5A—With Ms. Dimple

Friday 11th, November 2022

Literacy

In literacy this week, the children have looked into the format of instructions and learned how to follow instructions in order to play card games. They have also looked into how to write instructions and will be writing their own instructions on How to Create A Parachute. A work based on their Science Investigation.

Math

In mathematics this week, the children have studied statistic. Within this lesson, the children have learned to read graphs and interpret data.

Science

In Science, the children have continued their studies on Forces. This week, they focused on Friction. The children conducted a science investigation and explained the effects of friction on a moving vehicle and its effects created by different materials. They controlled the variables in their investigation and later on demonstrated which materials shows the best result.

Furthermore, the children are getting ready for their Star of the Month performances.
