

### Literacy

This week, Year 5A students have completed their assessments that focused on their reading comprehension skills and writing skills. On their writing assessment, their main focus was to write a narrative from an alien's point of view based on our lesson in non-fiction regarding our UFO topic. Within this task, they focused on our previous lesson using adverbials, expanded noun phrases and complex sentences.

Next week, we will continue our lesson with Non-fiction focusing on the features of instructions.

### Science

For the very first time in Science, we have done a science report writing assessment. This writing assessment were all based on our lesson with Forces focusing on gravity, friction and air resistance. The children have conducted their own investigation and have discussed the results with their partners before proceeding with their writing. Everyone did a great job and we're looking forward for more science investigations about our topic with Force.

The children have also been very busy with their performance for the Star Of The Month in November.

### Math

This week, the students have also completed two Maths assessment—their Arithmetic and PU-MA tests. The children have worked really hard and have shown very good results with their testing. Well done Year 5A!

Next week, we will continue our lesson with Fraction.

### Important Notice

- Tomorrow is our most awaited school fair. Thank you to those who have wholeheartedly donated to this event for The Angkor Children's Hospital and Kantha Bopha Hospital. We are looking forward to seeing you all and enjoy the fun activities each class have prepared for you.
- Then on Monday, 31st of October, It's Halloween Day!!! We are looking forward to seeing everyone in their spooky, cute or funny Halloween costumes! We will be holding a parade to showcase everyone in a costume. An award for the best costume will be given a prize in their classroom!
- On Friday 4th of November is INSET. Children won't be coming to school.
