## This week's **Super!** Achievers

Louie and Hoksing are now able to put their shoes on independently.

Jose can now communicate his need for the bathroom.

Diamond uses the correct pencil grip when writing.

Rattanak always completes his work on time.

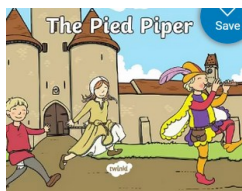

## PHONICS

### Body Percussion

We talked about sounds and looked at them according to different criteria, for example, loud and quiet sounds, slow and fast sounds, and long and short sounds.

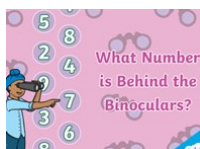

We used the story of the Pied Piper to talk about the sounds we hear.

## NUMERACY

### Recognising Numbers

We played "Behind the Binoculars" game to help us with recognising numbers. In this game, we use cupped hands to mimick binoculars. We used our binoculars to look at different numbers and then naming them.

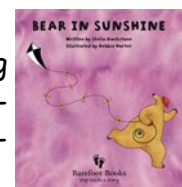

## LITERACY/TOPIC

### Topic- Weather

We are learning about the weather. We learnt a weather song, listened to the story "Bear in Sunshine", and played weather charades to help us identify the types of weather.

We continued practicing our pencil control by tracing lines, numbers and colouring pictures.

Our story is "Jungle Animals".

## HOUSEKEEPING

- Lateness may affect your child's schoolwork. Our class starts at 8:00 am. If your child comes to class later than that, he or she will be marked late.
- Please inform the office about any medication or vitamins that your child needs to take during school hours.
- Birthdays in the Classroom: Please let the office/teacher know a day ahead, if you plan to bring in treats for the class. Thanks!
