

## NEWSLETTER FEBRUARY 2023

This week was an assessment week so children took their tests on Monday, Tuesday and Wednesday. Overall, they showed good progress in Literacy, however, some grammar points still need to be worked on further. Also, general Science results are quite good, however Math remains to be a huge point for improvement for the majority of the class. The children also took a brief Word Processing test in ICT.

Even though it was a responsible and busy week, we also found some time to have fun: we started our doors decoration and went on a virtual excursion to the Eiffel tower, Mont Saint Michel and Louvre in Topics.

### IMPORTANT NOTICE:

- Term break - Feb. 20th—24th. Classes resume on Feb 27th, 2023
- No homework assigned, but children can use this time to read and fill in their reading logs
