**WELCOME
BACK!**

A TERRIFIC START TO TERM 2

BACK TO SCHOOL HIGHLIGHTS

- Setting new targets to reach even higher.
- Learning about number order and multiplication by playing Maths card games and board games.
- Student-centered classroom preparations for our School Fair special event next month! (Read more about this below).

We can confidently
order numbers!

LITERACY

We have started our new unit in Literacy, 'A Good Read'.

Students enjoyed investigating what different kinds of literature exist and made illustrations for different genres.

We practiced making inferences by looking at book titles and discussing what we thought various books were about. Students explored how book reviews are written and had a go making their own using informal language.

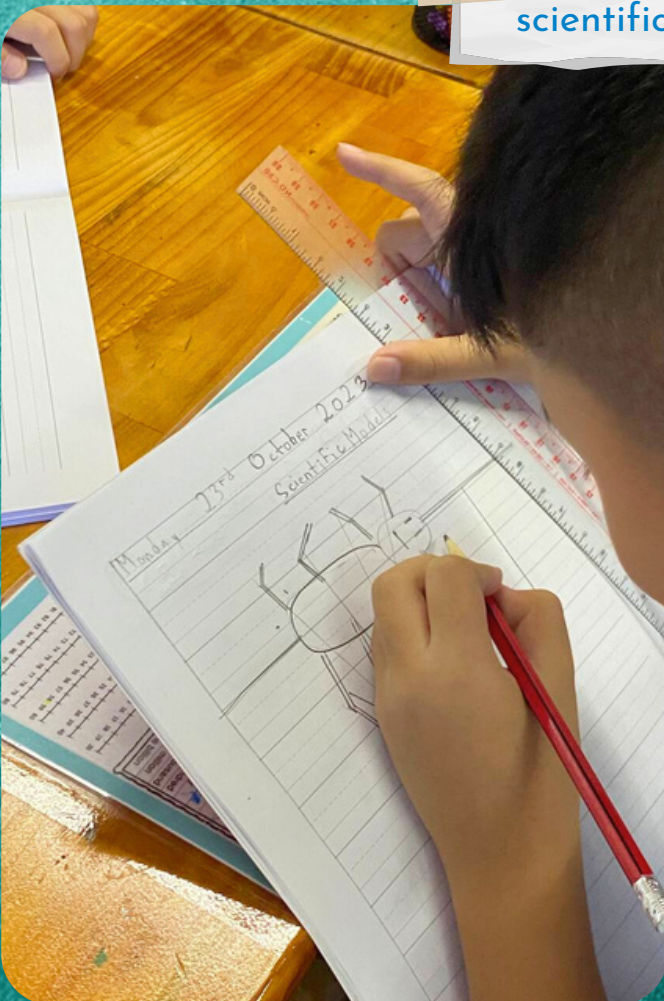

SCIENCE

This week in science, we learned about how models help us understand science better.

Students started this new topic by creating 2D models of animals that are native to Siem Reap.

After this, we used clay to create 3D models of our own faces, heads and body. This was so much fun and students paid great attention to detail, attempting to get sizes and proportions accurate.

We can make
scientific models!

MATHS

In Maths this week, we grew confidence in ordering numbers, rounding numbers and multiplying numbers by 10.

Students learned how to put a mixed group of numbers in ascending and descending order, showing this as a linear sequence.

Students used what we learned about place value in Term 1 to practice multiplying numbers by 10.

HALLOWEEN PARADE

Tuesday 31 October at 08:15

Students may dress up.
Families are welcome.

SCHOOL FAIR

Saturday 18 November

Year 3 will be hosting a special event! Students are very excited to turn their classroom into Siem Reap's first Dinosaur Museum!

Donations are welcome:

- Recycled plastic bottles.
- Cardboard toilet roll holders.
- Dinosaur toys or models.

Thank you!
