

Y6A NEWSLETTER

Friday 10th of November 2023

SCIENCE

The Y6 class has started to investigate the dissolving of different types of materials and are now busy with an investigation which requires them to work in groups. This means that the students may need their devices for research and communication in the coming week.

LITERACY

The students are currently busy with biographical and autobiographical writing pieces and will be required to construct their own pieces next week. They have all received vocabulary words that need to be studied for next week as the students will have a small quiz.

MATHEMATICS

Year 6 have completed the unit which consists of calculating the Surface Area of different 3D objects. The students will start with multiplication next week and are encouraged to review their multiplication tables.

Swimming with Ms. Kira

THIS WEEK Y6 CONTINUED THEIR BACKSTROKE UNIT. WE DID MANY EXERCISES ABOUT THE STREAMLINE POSITION AND LEARNING HOW TO BE STRAIGHT WHEN SWIMMING ON OUR BACKS. WE PRACTISED THIS WITH NOODLES AND HAD RACES AGAINST OUR FRIENDS. THE STUDENTS ALSO PRACTISED KEEPING BALANCE WHILE FLOATING ON THEIR BACKS.

Next swimming group:

Year 6A: Panjie, Engguang, Putthisak, Jing Hao, Sorng, Jingsing, Lee Meng, Raneath.

Swimming Reminders:

- MAKE SURE TO BRING YOUR SWIMMING SUITS/ SHORTS AND SWIMMING SHIRTS.
- BRING YOUR CAPS, GOGGLES AND FLIP FLOPS
- MAKE SURE TO BRING EXTRA CLOTHES TO CHANGE INTO AFTER SWIMMING.
- BRING YOUR TOWELS.

DON'T FORGET

- The bell rings at 7:55 am. Please arrive before this time.
- Healthy foods help with children's growth and development.
Always pack healthy food for your child.
- English Programme - The students have homework for English, Mathematics and Science.
- The school fair is on the 18th of November and the Year 6A class will be doing Water Balloon Catch. We ask for any assistance in donations for prizes which will include items such as stationery and small toy prizes, this will be greatly appreciated.
